*Tufascapes of Winnemucca Lake* is a collection of photographs using long exposure, focus stacking, and exposure blending techniques. He has a passion for venturing into, connecting with and capturing the various changing moods and dramatic scenery of the Sierra Nevada and other natural landscapes. The photographic prints were captured during visits to Winnemucca Lake in January, February, and April of 2015 to yield a more dynamic and characteristic sky in these photographs of Winnemucca Lake's stark beautiful landscape and its unique tufa formations.
