## Reversion to Acreage Application

### General Information and Process

#### What is a Reversion to Acreage?

A reversion to acreage is a process by which multiple parcels of land recorded through a subdivision map, parcel map, or map of division are recombined or reverted to a single parcel of land.

#### What is the Process and How Long Will It Take?

Applications are accepted on any business day during business hours. A review for completeness will be conducted within three days of the application intake date. Incomplete applications will be returned to the applicant and will not receive a decision. Once the application has been deemed complete, it will follow the process and estimated timeline in RMC 18.08.705, and is typically reviewed within 30 days.

### Application Checklist
