SER0073338	Rat infestationSER0073338	Received phone call from one of 3 occupants at property and his mother. Per RP (tenant) property manager was notified end of October/early November that there was a rat problem at the property. Exterminator arrived today to address the issue. RP stated that exterminator had told them there was a hole in the roof that the rats were entering the home through. Exterminator set out poison and traps and will return to property next week. Due to rat infestation rp and girlfriend are staying with his mother due to health concerns to include hantavirus. Property is divided into upstairs unit and basement unit with separate entrances, per rp tenant in basement is have same issues he is experiencing. RP still has access to property. RP mother has left message for Tyler at NNPH Vector department regarding Hanta virus and what property is safe to leave apartment and what must stay for safety reasons. Provided rp with 14 day notice and instructions.	1987 Plumas St, Reno, NV 89509	Open	Code Enforcement	2024-12-02 14:37:13
SER0073349	Service Request - Debris on Private PropertySER0073349	The property owner has now failed to have their trash picked up by Waste Management for the fifth straight time. It is now over a month of trash buildup, which they place in various locations outside the home. SER0073374	Homeless campSER0073374	It was brought to my attention that yesterday someone from Code enforcement came to 2200 Harvard way to check on our camp and couldn't find the six tents and multiple pallet structures on the creek behind our building in the south east corner of the property I then received notice that they closed the case. This is an ongoing growing daily camp. I'm really surprised that whoever looked couldn't find this camp. I will reach out by phone during business hours. These folks are breaking into cars, pan handling aggressively with our Costco shoppers as well as using this camp to disassemble stolen bikes and who knows what else. Please do not close this case until we get help. The previous camp that the city came to deal with just simply moved one hundred yards east and all the refuse was left behind. My carpets are still drenched floors are wet carpets have to be removed and the walls have to be torn out and they still won't move me out of this unit. I moved in four months ago, and there was already substantial damages there was already mold in the walls. There was already holes in the walls the floor were already lifting I believe that there might of possibly been another flood right before I moved in	8000 Offenhauser Dr, Reno, NV 89511	Open	Code Enforcement	2024-12-05 14:53:11

SER0073782	Service Request - Sidewalk ObstructionSER0073782	I received an email last 12/05/24 in response to my request for a wall repair at University Ridge Subdivision. "Your case SER0073535 has been closed. Short description: Service Request - Sidewalk Obstruction" Comments: 2024-12-05 15:28:41 "Unable to determine if fence is in disrepair due to the large amount of vegetation obstructing CEOs view of fence. Closing case" The request I submitted included the addresses of seven homes on Isis Court whose backyards are bordered by the broken concrete wall/fence. (#'s 845, 865, 875, 885, 889, 895 and 890). The message sent by your office did not include the house number associated with "Closed Case SER0073535." The CEO's response is understandable in terms of not being able to determine the extent of the fence damage due to the overgrown vegetation, however, the crumbling fence is one continuous structure. If parts of the wall are repaired, but not the sections hidden by foliage, the unrepaired portion will continue to pose a significant hazard for pedestrians and residents of the seven houses. For the safety of pedestrians and residents, I WOULD LIKE TO REQUEST for an overgrown vegetation cleanup to remove plants covering the broken wall, situated next to the concrete sidewalk, on the left side of Socrates Street going into University Ridge Subdivision, a few yards past the railroad tracks. Please ask the CEO which house address is bordered by the wall with thick foliage. Thank you.	889 Isis Ct, Reno, NV 89512	New	Code Enforcement	2024-12-05 21:40:11

SER0073783	Service Request - Sidewalk ObstructionSER0073783	<p>I received an email last 12/04/2024 from your office in response to my request.</p> <p>"Your case SER0073539 has been closed. Short description: Retaining wall concerns"</p> <p>2024-12-05 15:28:41</p> <p>"Unable to determine if fence is in disrepair due to the large amount of vegetation obstructing CEOs view of fence. Closing case."</p> <p>When I made the request, I included the numbers of the seven houses whose backyards are bordered by the broken wall (845, 865, 875, 885, 889, 895 and 890). The email did not provide the house number associated with Closed Case SER0073539.</p> <p>I understand the CEO's comment that the fence is covered by vegetation, thus, the damage cannot be viewed. The broken down wall is one continuous structure. If parts of the wall are fixed but certain sections are not repaired, the risk for injury for pedestrians and residents remain.</p> <p>For the safety of pedestrians and residents, I WOULD LIKE TO REQUEST A CLEANUP of the thick foliage on the retaining wall which borders the sidewalk of SOCRATES STREET..... the main entry to University Ridge Subdivision. The dangerous wall is situated a few yards past the subdivision sign, over the railroad tracks, on the left side of the road. The clean up will reveal the extent of the wall damage (dangerous lean, holes due to fallen pieces, separated sections, etc.).</p> <p>I am hopeful that since I did not receive a "case closed" message about the other house numbers I used for the report.... that my request for the repair of the hazardous wall is still active and in the planning phase.</p> <p>Thank you for your time and consideration.</p>	885 Isis Ct, Reno, NV 89512	New	Code Enforcement	2024-12-05 22:17:25
