SER0130704	257 ThomaSER0130704	<p>On Thursday, 6/4/26 a concerned neighbor called to report that boarding had been removed from an abandoned property located at 257 Thoma St (Stack # .50416). It was unknown if anyone had actually made entry.</p> <p>The caller told me that police/city employees had boarded up the residence but had no contact information for the actual property owner. SER0130794	Overgrown Vegetation at SER0130794	<p>Per TE: Talked with the RP via phone call and we decided to meet to go over how a sight distance study is completed and why we normally don't do them at signalized intersections. The RP understood and was satisfied with these explanations. We then discussed the vegetation that is encroaching onto the sidewalk, making it difficult to see pedestrians and cyclists. It is my recommendation that this vegetation be trimmed to back of sidewalk at whatever the allowed fence height would be at a corner. SER0131461	Service Request - Junk Vehicle on Private PropertySER0131461	Please note we need to remain anonymous as we live nearby these people. Our neighbors at 130 Mayberry Drive, Reno Nevada are working on vehicles constantly both day and night. There are at least 7 to 8 vehicles in the front yard, street and driveway at any given time. They sand and paint vehicles all the time and we notice overspray on our property. People are coming and going all hours of the night, bright lights on at night to facilitate their working at night. The light and noise keeps us awake, we believe they are fixing up and selling cars from the property. As we speak there are 8 vehicles plus several motorcycles, and an old dilapidated storage shed in the yard. Dirty and non running vehicles are everywhere, all over the front of the home.	130 Mayberry Dr, Reno, NV 89509	Open	Code Enforcement	2026-06-11 10:13:13

SER0131545	5 RedstoneSER0131545	I am a resident of University Ridge and am writing to report ongoing fire hazard conditions at the above-referenced property that pose a significant risk to our neighborhood. My most urgent concern is the presence of a large dead pine tree on the property. Dead pine trees represent a serious fire hazard, particularly in Nevada's dry climate, due to the highly flammable nature of dry pine needles, resin, and timber. Photographs of this tree will be included for reference. This fire hazard does not exist in isolation but rather reflects a persistent pattern of property neglect since the current owner purchased the property in 2012, including: Multiple large mature trees that have died over the years, apparently due to lack of irrigation and maintenance; establish landscaping that previously made this	5 Redstone Dr, Reno, NV 89512	Open	Code Enforcement	2026-06-11 15:53:21
