Debt Administration

Nevada Revised Statute 350.0013 requires local governments file a written debt management policy with the Department of Taxation and the Washoe County Debt Management Commission each year. The policy is used to analyze the existing debt position of the City and assess the impact of future financing requirements on the City's ability to service additional debt. This analysis is not intended to review the City's total financial position or to make projections of future expenditures other than debt service.

Review and analysis of the City's debt position is required to provide a capital financing plan for infrastructure and other improvements. Both available resources and City needs drive the City's debt issuance program. Long-term projected financing is linked with economic, demographic and financial resources expected to be available to repay the debt. City debt ratios are examined as well as the impact of future debt financing on those ratios. The use of debt ratios is only one tool of many in determining a course of action and is not used exclusively in making a decision.

Decisions regarding the use of debt is based upon a number of factors including, but not limited to, the long-term needs of the City and the amount of resources available to repay the debt. The debt policy is not expected to anticipate every future contingency in the City's capital program or future operational needs. Sufficient flexibility is required to enable City management to respond to unforeseen circumstances or new opportunities, when appropriate.

The City will maintain direct tax supported debt at a manageable level considering economic factors including population, assessed valuation, and other current and future tax-supported essential service needs. For bonds being repaid solely with property taxes, the City will strive for a debt service fund balance in an amount not less than the succeeding year's principal and interest requirements, or in compliance with reserve fund requirements as established in bond covenants, whichever is greater. The following chart and graph show the relationship between net bonded debt and population and assessed value for the City.

Net bonded debt equals total general obligation debt less debt paid from enterprise fund revenues, from special assessment against benefited properties, and from special revenue sources payable solely from revenues derived from other than general ad valorem taxes.

The City can sell its debt directly to a bank or it can issue bonds in the municipal bond market. The decision to issue bonds or to obtain bank financing is based upon which alternative will provide the City with the lower costs. The City Council decides on an issue-by-issue basis

Comparison of Debt to Assessed Valuation

Year	Assessed Valuation (in Thousands)	General Obligation Debt
2008	6,895,547	95,796,774
2009	7,807,017	156,347,110
2010	7,043,707	164,574,245
2011	6,444,340	159,850,329
2012	6,046,671	149,284,052
2013	5,9369,928	139,165,318

Net Bonded Debt per Capita

which method of sale would be most appropriate. The City encourages the use of competitive sales for all issues unless circumstances dictate otherwise. Negotiated sales are considered if the sale is a complex financing structure (certain revenue issues, a combination of taxable/nontaxable issues, etc.) or based upon other factors which lead the Finance Department to conclude that a competitive sale would be less effective. If a negotiated sale is anticipated, then the Finance Department and City Bond Counsel establish a list of pre-qualified underwriters.

The City maintains an Aa2 with negative outlook rating from Moody's and A with negative outlook from Standard and Poor's.

Legal Debt Margin

The City Charter limits the aggregate principal amount of the City's general obligation debt to fifteen percent (15%) of the City's total reported assessed valuation. Based upon the assessed valuation of \$6.4 billion for the fiscal year ending June 30, 2011, the City is limited to general obligation indebtedness in the aggregate amount of \$966.7 million. The City has \$180.6 million of general obligation debt outstanding as of June 30, 2011.

<u>Outstanding GO Bond</u>	<u>\$ -139,200,000</u>
Margin	\$ 749,037,464

Summary of Outstanding Debt

General Obligations Bonds supported by Ad Valorem Taxes

The City has outstanding general obligation and refunding bonds for capital facilities, including street and storm drain improvements. These bonds are supported by ad valorem taxes and constitute direct and general obligations of the City. The full faith and credit of the City is pledged for the payment of principal and interest, subject to Nevada Constitutional and statutory limitations on the aggregate amount of ad valorem taxes.

In any year in which the total property taxes (ad valorem) levied within the City by all overlapping entities (e.g. the State, Washoe County and special districts) exceed such tax limitations (\$3.64 per \$100 of assessed value), the reduction to be made by those units must be in taxes levied for purposes other than the payment of their bonded indebtedness, including interest on such indebtedness.

General Obligation (Limited Tax) Medium-Term Bonds

The City issued bonds in 1997 to finance the purchase of the YWCA recreation center and for rehabilitation of Paradise Park, which was severely impacted by the drought of the late 1980's and early 1990's. A portion of the initial bonds were refunded in 2004. Both projects are in CDBG eligible areas and repayment of the bonds was secured and approved by pledged CDBG grants during the 10-year repayment schedule.

General Obligation Bonds Supported by Golf Course Revenues

The City issued these bonds in 1989 to finance the construction of the Rosewood Lakes Golf Course, an 18-hole professional course with a clubhouse and a maintenance facility. A portion of the initial bonds were refunded in 1993 and in 2004. The bonds are payable from net pledged revenues (user fees) derived from the operation of the golf course. Although the bonds are general obligations of the City, the City has paid the bonds solely from the net pledged revenues.

Special Assessment District Debt

The City established "Special Assessment Districts" (SAD's) to finance various improvements such as streets, sidewalks, sewer lines, and other projects described in NRS 271.265. A special assessment is a charge imposed against certain properties to defray part or all the cost of a specific improvement deemed to primarily benefit those properties, separate and apart from the general benefit accruing to the public at large. Since the special assessment is not available until construction is in progress, the City issues either interim warrants, which are essentially a short-term construction loan, or self-finances. Interim warrants are usually structured as a bank line of credit. Funds from the interim warrants are advanced from time to time from banks as construction financing is needed. Current SAD debt outstanding is \$24,080,432.

Interim warrants are payable from special assessments to be levied to pay, in part, the costs of improvements in assessment districts and/or from the proceeds of special assessment bonds. If these sources become insufficient to pay the interim warrants and the interest as such becomes due, the deficiency may be paid out of the Surplus and Deficiency Fund, and then further by the General Fund of the City. If there is a deficiency in the General Fund, it is mandatory for the City (in accordance with the provisions of NRS 271.495) to levy and collect ad valorem taxes upon all property in the City which is by law taxable for State, County and municipal purposes, subject to the limitations of constitutional and statutory requirements. The City's intent is to

retire any interim warrants and interest thereon with special assessments and/or assessment district bond proceeds and not levy a general ad valorem tax.

ReTRAC Bonds supported by Sales Tax and Room Tax

In December of 1998 the City issued the bonds to finance a portion of the construction of a depressed railway (trench) through the downtown corridor. Additional funding for the project is being provided through state and federal funding sources. Since the original issue, further enhancements to the trench have been made. The current outstanding debt for the ReTRAC enhancements is \$195,696,227.

Event Center Bonds supported by Room Tax

In 2002 the Reno Sparks Convention and Visitors Center sold the Downtown Bowling Center to the City, while retaining responsibility for marketing and maintenance of the facility. The City issued bonds in the amount of \$108,625,000 for expansion and remodel of the facility. The bonds are limited obligations payable from Room Tax specifically designated for this purpose.

City's Accelerated Street Program Bonds

The City has developed criteria to accelerate the construction, improvement and maintenance of neighborhood streets in order to improve the condition of the streets for use by the traveling public. The City issued bonds in June, 2009 for an accelerated street program. The City expects to fund portions of the Project in each of the fiscal years 2010, 2011 and 2012. While these bonds are General Obligation bonds, the City expects to pay the principal and interest on the debt from proceeds generated by the Streets Override measures as allowed by state statute.

Tax Allocation Bonds - Redevelopment Agency

Nevada Revised Statutes provide a means for financing redevelopment projects based upon an allocation of certain ad valorem property taxes collected within a redevelopment project area. The taxable valuation of property within a redevelopment project area last equalized prior to the effective date of the ordinance which adopts the redevelopment plan, becomes the base valuation. Taxes collected upon any increase in taxable valuation over the base valuation are allocated to a redevelopment agency and may be pledged by a redevelopment agency to the repayment of indebtedness incurred in financing or refinancing a redevelopment project. Redevelopment agencies themselves have no authority to levy taxes and must look specifically to the allocation of taxes procedure as described above. In 1995 and 1998, the Agency refunded a portion of the original issues.

The table on the following page summarizes the City's and Redevelopment Agency's outstanding debt.
