#### Explain briefly why you would like to be appointed to this board or commission.

In my candidacy to join the Reno City council, I see helpful and positive roles for the council and how my presence and voice would be helpful in achieving positive outcomes. First, and most importantly, I see my primary role for the city council should be to be an advocate for the people of the city. Second, I want to be a city council person who is in vital and active communications between the people and the city. Third, as a councilman, I can be a valued partner with the city manager, by taking advantage of my experience, skills and perspectives, gained from my last 15 years of community service and activism in a city in which people can feel isolated and undervalued. Fourth, because unity in diversity should be valued as a asset in any city and this virtue will cause city's to thrive, my experience in this area will enhance not only the council but our city, I have "people skills" that can be used to bring people together toward common goals and unity. Finally, I believe that the foundation of any thriving community should include education, economic development, the arts, serving, valuing others, thriving downtown & university district, tech progression, shopping and recreation. If we want to become a city that is thriving and flourishing and continue attracting strong companies to the area with better jobs, we must work to enhance and expand these categories. These are the reasons why I would like to join this council.
