

# SOMERSETT WEST PARK UPDATE

(07/24/2020)

Spanish Springs Construction reached substantial completion on the project on June 8, 2020. After a 60-day maintenance period, the Somerset Owners Association will assume responsibility for routine janitorial and landscape maintenance for the park, consistent with their maintenance program at Somerset East Park.

The SOA will be in charge of management and operation of the Community Garden. Contact the SOA at 775-787-4500 for questions.

City Parks and the SOA will follow up with a project for the large dog area in fall 2020 to remove invasive cheatgrass and foxtail weeds, and in spring 2021 will apply an appropriate native seed mix. The SOA will also be working on a project to install commemorative pavers around the seatwall at the front of the park.

The total construction cost for the park came in just over \$1.9 million dollars, with funding support through donor efforts and a \$200,000 Land & Water Conservation Grant through the National Park Service and Nevada State Parks. The Somerset Owners Association also obtained a \$25,000 grant for the dog park from the 2018 Petsafe® Bark for Your Park™ program.
