

Farmer's Markets

	Mandatory	Recommended Best Practices
Employees and Guests	<ul style="list-style-type: none"> Screen all producers and employees for COVID-19 upon arrival to market. Require all producers, vendors and employees to wear face coverings and gloves. Wash hands with soap and water for 20 seconds prior to starting their shift, after each customer and as necessary as hands become contaminated. Sanitize all surfaces that are used for transactions: card readers, tabletops and everything that may have been touched after each customer. Suspend all sampling of produce/food. Cancel all entertainment that will result in gathering of crowds of 10 or more people less than 6 ft. apart. 	<ul style="list-style-type: none"> Pre-bag produce. Face coverings strongly recommended for guests. Take clients temperature. Anything over 100.4 degrees Fahrenheit, refuse service. Touchless payment methods (i.e. utilizing mobile phone payment).
Shift Pattern	<ul style="list-style-type: none"> Increase or decrease operating hours as necessary to avoid crowding and provide for 6 ft. social distancing. Establish maximum capacity (50% of fire code). 	<ul style="list-style-type: none"> Consider extending the afternoon hours for the Market.
Physical Spaces and Workstations	<ul style="list-style-type: none"> Post a sign at entry to Farmer's Market prohibiting entry for ill individuals. Provide vendor spaces that allow for separation and social distancing a minimum of 6 ft. apart. Provide hand sanitizing station at the entry to Farmers Market. Disinfect all high touch areas including light switches, door handles, sinks, sink handles and countertops regularly. Suspend all sales events and parties until 6 ft. social distancing guidelines are lifted by the Governor. 	<ul style="list-style-type: none"> Use floor markings to show 6 ft. distance for employees/clients. Provide hand sanitizer stations in conspicuous locations every 50 ft. of Market space.
Confirmed Cases	<ul style="list-style-type: none"> Immediately isolate and seek medical care for any individual who develops symptoms while at work. Contact Washoe County Health District about suspected cases or exposures. Shut down floor for deep sanitation if possible. 	<ul style="list-style-type: none"> Work with WCHD to identify potentially infected or exposed individuals to help facilitate effective contact tracing/notifications. Once testing is readily available, test all suspected infections or exposures. Following testing, contact WCHD to initiate appropriate care and tracing.
